Student Health Records Online

Dear Parent or Guardian:

St. Michael's School has elected to use the SNAP Health Portal to better connect you with your child's school health and wellness information. This web-based system provides an easy, secure, and green way for you to update and review important school health information and medical documents throughout the year. Encrypted transmission protects all data from exposure and meets the highest security standards, ensuring health information is always kept safe and confidential. With 24-hour access over the web, you will be able to:

- This system will replace the yellow annual health information form for all students K-8

- Electronically sign and submit all health forms safely over the internet

- Review and update new health information such as vaccinations, health conditions, and screening results throughout the school year

- Receive immediate notifications when there are changes in your child's health status
