

## St. Michael's School Web Tools Permission Slip

Grades K-8

Dear Parents,

In order for St. Michael's to continue to be able to provide your student with the most effective web-based tools and applications for learning, we need to abide by federal regulations that require a parental signature as outlined below.

St. Michael's utilizes several computer software applications and web-based services, operated not by St. Michael's, but by third parties. These include Google Apps for Education, Quizlet, Code Studio, and other educational programs.

In order for our students to use these programs and services, certain personal identifying information, generally the student's name and email address must be provided to the web site operator. Under federal law, these websites must provide parental notification and obtain parental consent when collecting personal information from children under the age of 13. The law permits schools such as St. Michael's to consent to the collection of personal information on behalf of all of its students, thereby eliminating the need for individual parental consent given directly to the web site operator. We will be collecting parent consent for all students, even those 13 and older.

**This form will constitute consent for St. Michael's School to provide personal identifying information for your child consisting of first name, last name, school email address and username to the following web-operators: Google Apps for Education, Quizlet, Code Studio, and to the operators of any additional web-based educational programs and services which St. Michael's School may add.**
