

Dear St. Michael's Parents and Families,

Happy Sunday to all of you.

Please find the initial working draft of our 2020-2021 Covid Management Plan, attached, with details to date for on-campus and distance learning. Please remember that we will host two webinars this coming week with the medical professionals in our planning group and our administrative team to answer questions from parents, on **Wednesday and Thursday, July 22 and 23, from 5:30 - 6:30 p.m.**, with the links and agenda for each to be sent to all families via email on Wednesday morning. Please note as well that this document is a working document, representative of our plans to date, and we will update it as we progress through the summer and throughout the year.

As with all communications regarding the 2020-2021 academic year, please read this document in full.

I look forward to our online conversation later this week.

Sincerely,
Brendan Sullivan
Head of School
